SWING SEATS & HAMMOCKS

This globe-shaped hanging chair and stand is crafted from Spruce wood, from sustainable European woods.

The stand is waterproof and weather-resistant so you can have it indoors or outdoors.

It comes with a big soft cushion which can be wiped clean if necessary.

This is not waterproof, so to keep your cushion soft and comfy we recommend you take it inside when not in use.

All swing seats come with shower resistant cover.

Double seat

Base Diameter: 232 x 137 x 195.5cm

Globe Diameter: 175cm

Weight: 56.5kg

Load Capacity: 200kg

Hammock

Hammocks are made from sustainable spruce wood from European forests. To make it weather resistant, the wood is dipped in a protective liquid which impregnates the wood.

All the metal parts are galvanised so they too are weather resistant.
